### LET UNCLE SAM GIVE YOU THE FACTS

Government reports show the steady  
output of coal during the last few  
years has made the dealers push for  
wider markets. We are going to get  
more trade—your trade—by giving  
you a greater value for your money.  
You will never get out of debt unless  
you buy wisely.

# In the Market For a WHEAT DRILL

Then Our "New Peoria" Is What You Want

It has perfect working discs, fitted with dust proof chilled bearings, single draw bars that will not gather trash, staggered spoke wheels with 7-inch hub and 3-inch tires, continuous rear bar with truss rod to support seat and keep drill from sagging, direct pressure in rear of disc; a feature we claim will make this drill work perfectly in any land suitable for sowing grain and where other drills cannot be operated. A seat in center of drill convenient to lever is also furnished. Drop in and let us show you what this drill can do, and furnish you with the names of a score of satisfied users. One feature of our drill that puts it in a class by itself and makes it superior to all other drills on the market is the "Peoria Disc Shoe." You won't find the disc shoe on any other press drill on earth, the Peoria people have that feature cinched and they are going to hang on to it. If you want to know why we can grow more wheat to the acre after this drill than any other with the same amount of grain sown, come in and let us explain to you the "New Peoria Disc Shoe Drill."

New York Giants Walloped Boston  
11 to 4—Wood Knocked  
Out

Boston, October 15th.—The New York  
Giants, pennant winners of the National  
League, administered a crushing defeat to the  
Boston Americans today by a score of 11 to  
4 in the seventh game of the world's series.  
Tonight finds the Giants and the Red Sox  
waiting to engage in the final combat here to-  
morrow that will determine which teams shall  
be the world's champions of 1912.

The series now stands: Boston three games  
won; New York, three games won; and one  
contest a tie.

"Smoky Joe" Wood, the Red Sox star  
twirler, who had already beaten the Giants  
twice in the series was sent out to pitch the  
Red Sox into the world's championship. His  
end was so swift and so sudden that the 30,  
000 spectators sat in silence at Fenway Park  
as they saw his delivery halted to all parts of  
the field and six Giant players were over the  
home plate before the last New Yorker was  
put out to the first inning.

The score:

### AUDACIOUS HOLD-UP

Perpetrated on One of the  
City's Most Prominent  
Thoroughfares

The Robber Makes Good His  
Escape With His Booty

Last night about 8:30 o'clock, as  
Mrs. Mary D. Hammer, niece of Dr.  
John T. Fleming, was wending her  
way home in West Front street, in  
passing North on Sutton street she  
was assailed by a colored man and  
robbed of her purse containing \$10.

The audacious robber was standing  
in the side doorway at the residence of  
Mr. W. W. McIlwain, and the shadow  
of the shade trees lining that part of  
the street prevented Mrs. Hammer see-  
ing her assailant until he stepped out  
from his hiding place and grabbed  
her by the shoulder and at the same  
time snatching her purse.

The desperate attack came so sud-  
denly that Mrs. Hammer was almost  
paralyzed with fear and for the in-  
stant was unable to give a warning  
cry, and before recovering her nerve  
the fellow had made good his escape.

Conditions are becoming desperate  
when pedestrians are assaulted and  
robbed in the heart of the city and on  
one of our most frequented thorough-  
fares and at an hour when the streets  
are alive with people traversing the  
sidewalks.

It is to be hoped that the bold rob-  
ber will be run down and caught and  
punished as he justly merits.

Colonel Henry E. Pogue is in receipt of a

the picture of the three Presidential candi-  
dates, Taft, Wilson and Roosevelt. Apper-  
ently there is only the picture of Taft on the  
card, but by slight manipulation it discloses  
into that of Wilson and again that of Roose-  
velt. It is novel and unique, to say the least.

## SHALL IT BE EVERY TWENTY YEARS?

To the Editor of the Times-Star:  
1872-1892-1912.

That one generation does not always profit by the experience of the past one may again be exemplified in the coming election. It is hoped that 1912 will prove the exception:

The writer is not so young but that he can remember the conditions of the 1872 period. There were political mistakes and the people suffered, although quite young, yet the memory reveals men walking the streets in large numbers seeking work, and soup houses were very popular, per force.

The 1892 period memory is more clearly defined. Young, husky, willing men of good education and good knowledge of their chosen professions could find nothing to do. Men of maturer knowledge accepted positions for any thing it paid almost to the exclusion of the younger man. I myself spent a whole year in idleness, although willing to take on anything that was honest. There was no activity in real estate, railroad building or public improvements. This condition has happily all passed away and to-day we see activity and prosperity on every hand. The young men of one and two score years ago are now the thinking men of to-day. If they by their votes in those past periods, helped bring about the conditions above cited, they are to day profiting by that school of experience and are found warning the younger men of the dangerous rocks ahead. Will they be heeded?

I am not politician enough to go into the details, but having passed through some very dark periods of business prostration I will make a comparison of present conditions. Let the doubter stand on any of the downtown corners of our city between the hours of seven and eight any morning. He will see throngs of young men and women hustling to their work. They are all well dressed and have all the outward appearances of prosperity and even thrift. Few now carry the lunch basket or the "full dinner pail" made famous during the McKinley campaign. They don't need to, for in ninety-five cases out of a hundred these workers are getting a hot dinner in the neighborhood because they are making the wages to so indulge.

The great majority of them are paying ear fare from a home in the outskirts of the city, being paid for or paid for through a building association. The nickel shows are crowded nightly and only the past week I tried to get two seats for the next evening at a 10-20-30-cent theater and was told the house was sold out. Do we want a change? In the 1892 period reduction of salaries was a popular pastime with employers, cuts as high as 33 1/3

per cent. having been made. This prevailed not only in the factory and shop, but in offices as well. Will the present young voter and those who have become voters by acquired citizenship and know not by experience of these periods of depression, accept the warning and consider the inevitable before going blindly into the matter, or live to regret the vote afterwards as many have done before?

There are reforms to be made, 'tis true, but there is such an awakening in matters national that a continued prosperity is better than stagnation while the reforming is being done, and I claim the Republican party is big enough to continue that prosperity and enact the reforms.

Cincinnati, O. —W. G. B.

Edison says he will vote for T. R. Naturally; he is an admirer of talking machines.—Commercial Tribune.

The safe plan is to vote for the party which stands for the politics under which all our prosperity and progress has been achieved.

One Wilson Tariff law took beef from the poor and gave them soup. Was the Tariff the cause of "the high cost of living" then? Another Wilson wants to repeat the affliction. The second Wilson has the same theory as that which obsessed the first, and the condition which confronted the American laboring man following the first application of Free-Trade, a quarter of a century ago, arises as a spectre before their sons.

## A CANDIDATE FOR THE PEOPLE.

How many times have we heard Colonel Roosevelt make the pointed statement that he is a candidate of the people.

Even in his former campaigns we heard the same words uttered.

And yet as he stands today the "Marked Enemy of the Big Interests," as he terms it let us see who is his friend and who is coming to his support.

He claims the big interests are back of Governor Wilson as well as President Taft, yet he is carrying "Bill" Flynn and Perkins with him as a body guard.

It was only last Thursday when J. Pierpont Morgan was on the witness stand before the investigating committee that he stated how \$150,000 was dumped into the 1904 campaign to help elect Colonel Roosevelt.

Bill Flynn admits as to how he has forked over \$144,308 for the support of the Colonel during the present campaign.

Previous witnesses also testified that Archbold, Frick and Gould each gave \$100,000 for the cause. Also how the late Harriman contributed \$250,000 to his support.

It appears these big moneyed men do not compose or are not now a part of the so-called "Big Interests" in the mind of Teddy that Governor Wilson and President Taft are their only friends.

It is true that Governor Wilson has made good as the governor of New Jersey but his future has not yet been tried out.

As for President Taft, we have not had such a bad mix-up in affairs, or such hard times, after all. He has made the laboring man look at him as their friend. He has made us have better times during the four years under his administration than the country has ever known. Why take a chance?

A justice of the peace, who was about to perform a marriage ceremony, got his rituals mixed. "Madam," he said, addressing the bride, "do you agree to take this man for your lawfully wedded husband?" After the young lady had replied in the affirmative, the justice turned to the bridegroom and delivered himself as follows: "Prisoner at the bar, what have you to say in your defense?"

## FACTS AS TO EXPORT PRICES

Good Reasons Why in Exceptional Cases Goods Are Sold Cheaper Abroad Than at Home

Albany Journal.

Conclusive refutation of the Democratic charge that products of American industries which are protected by import duties from foreign cheap labor competition, are regularly sold cheaper abroad than at home, will be found in the article on "Export Prices" by Thomas O. Marvin, Secretary of the Home Market Club.

Mr. Marvin proves, by figures and statement of facts, that lower prices in foreign markets are the exception, that when they are made there are special, good and sufficient reasons, and that in any case such price reduction is of trivial importance since only a little more than 1% of all manufactures of the United States enters the export trade.

He shows that in some cases the assertion that things of American manufacture are sold cheaper abroad is based upon comparison of prices of manufactures of different quality, those at home being superior; that in other

cases the lower prices to foreign consumers are due to the fact that a smaller percentage is added to the wholesale price to cover profits and cost of distribution. That is, the foreign dealers pay the same prices to American manufacturers; that American dealers pay; but they make lower prices to their customers than do the American dealers. Finally, sometimes lower wholesale prices are made in foreign markets to meet the local competition or to dispose of surplus products. But that happens only on occasions and effects an altogether negligible percentage of American manufactures.

Of all the misrepresentations concerning the tariff this one about underselling in foreign markets has been most industriously and persistently circulated. No one who reads Mr. Marvin's article can fail to be convinced that this charge is based on gross exaggeration of facts and therefore amounts to falsehood. The article is commended to the attention of all who desire correct information about the protective tariff and its effects.

M. A. Crosby, cashier of the Bank of Ala., Ga., was shot and killed by his wife and Mrs. Crosby then committed suicide. The bodies were found by their six-year-old son.

# Your Brain Is a Battery

Its thoughts are the sparks that set Success in motion.

The simplest form of battery requires three factors to make the electric spark—(Zinc, copper and an acid.)

The human brain also requires three vital elements to put forth thought—water, albumen and Phosphate of Potash.

In the brain as in the Battery, let a single element become weakened from yesterday's use and lessened activity follows. Therefore, in order to keep a good working brain or add to its power, one absolutely must use food which contains albumen and Phosphate of Potash.

## Why not do a bit of thinking now?

Water and albumen exist plentifully in every-day food, but Phosphate of Potash is often lacking. That missing element exists freely in the outer coating of wheat and barley, but the miller of white bread flour throws it out because it makes his flour brown instead of white.

# Grape-Nuts FOOD

Made of choice wheat and malted barley, retains the rich brain-building Phosphate of Potash required by Nature for supporting bright brains and active minds.

Pure! Wholesome! Appetizing! This food is partly pre-digested and quickly absorbed. A morning dish with cream provides FORCE for accomplishment that many a man has come to know and appreciate.

Common Sense goes a long way toward making Success. To eat right often means to BE right.

## FOR MAYSVILLE PEOPLE

## MAYSVILLE CITIZENS' EXPERIENCES FURNISH TOPICS FOR MAYSVILLE DISCUSSION

The following experience occurred in Maysville. A Maysville citizen relates it. Similar experiences are occurring daily. Maysville people are being relieved. Getting rid of distressing kidney ills. Trying Doan's Kidney Pills the tested Quaker remedy.

Maysville people testify, Maysville people profit.  
The evidence is home evidence—the proof convincing.  
Maysville testimony is gratefully given.  
Maysville sufferers should heed it.

W. F. Lynch, 127 W. Third street, Maysville, Ky., says: "Doan's Kidney Pills are a fine medicine. My kidneys were weak and the passage of the kidney secretions were scanty and painful. Having used Doan's Kidney Pills before, I again got a box and their use quickly restored my kidneys to a normal condition. I continued using Doan's Kidney Pills and they completely relieved me."

## No. 8--THE EXECUTION OF TRUSTS

This Company is empowered by law to assume charge of real estate or personal property, either as the representative of living clients or as the executive chosen to care for the estates of persons deceased.

The reason why its services are more desirable than those of individuals in such capacities are many:

Its experience has been more extended; its judgment is more reliable; and its investment opportunities are better.

## HOW TO RESIST

## Chronic Coughs and Colds

Strong vigorous men and women hardly ever catch cold; it's only when the system is run down and vitality low that colds and coughs get a foothold.

Now isn't it reasonable that the right way to cure a cough is to build up your run down condition again?

Mrs. Olivia Parham of East Durham, N. C., says: "I took Vinol for a chronic cough which had lasted two years and the cough not only disappeared, but it built up my strength as well."

The reason Vinol is so efficacious in such cases is because it contains in a delicious concentrated form all the medicinal curative elements of cod liver oil, with tonic, blood building iron added.

Chronic coughs and colds yield to Vinol because it builds up the weakened, run-down system.

You can get your money back any time if Vinol does not do all we claim. John C. Pecor, Druggist, Maysville, Ky.

## AMERICAN LABOR

## What It Could Look For With Wilson Elected

## Big Slump In Wages Under Free Trade

The result of the coming election largely depends on the intelligence, the independence, the foresight of American labor. Employment is the first requisite in maintaining labor's welfare and independence. The Republican party, in concerning the American market for the American worker, gives assurance of employment, and puts the workingman and workingwoman in a position to assert their rights, and to demand and receive a fair share of the wealth created by largest part by their skill and toil. When there is no employment, no industry to build up and maintain, there is obviously no vantage ground for labor to stand upon in asserting its claims to a just and fair recompense. The Republican policy in brief is: "Let the Americans work for America!"

The Woodrow Wilson Democratic policy is to let a large part of the work for America be done abroad, thus narrowing the field for the American worker, and weakening the ability of American labor to secure a just portion of the comforts of life. For, we have pointed out, the rock bottom, the foundation of labor organization and co-operation is employment, and the superstructure is weakened in proportion as the foundation is undermined and impaired by over-competition for the work to be done. Clearly every pound of foreign goods, every bolt of foreign cloth, sold in America, diminishes the need for American labor in that proportion.

The Republican party, by its policy of protection, does not close American ports to foreign goods, but it keeps the tariff on goods which compete with American labor high enough to prevent our workers from being dragged down to the European level.

Woodrow Wilson, Democratic candidate for President of the United States, publicly declared his attitude toward American labor, and especially organized labor, less than four years ago, in an address to the graduating class at Princeton, June 13th, 1909, when he said that the "labor of America is rapidly becoming unprofitable under its present regulation by those who have determined to reduce it to a minimum. Our economic supremacy may be lost because the country grows more and more full of unprofitable servants." Wilson went out of his way to deliver this utterly false and uncalled for slap at organized labor, just as he went out of his way to say that the Chinese are "more to be desired as workmen, if not as citizens" than immigrants from Europe. Clearly labor would have nothing to expect under a Wilson administration except hostility and contempt on the part of the executive, and loss of employment and consequent hardship and depletion of resources as the result of another Democratic tariff bill, like the Wilson Law of 1894-97.

Labor knows what it has under the Taft Republican administration. By looking back seventeen years to the soap houses of the last Democratic administration, it can guess what it would have under Wilson.

## THE WAR ON CUCUMBERS.

In order not to arouse the resentment of those who advocate cucumbers as a diet, it is just as well, perhaps, that the department of agriculture, in reprinting that valuable brochure on "Green Vegetables and Their Uses," should deal with a grave question only in general terms, says the Washington Post. Such a mass of evidence has been produced during the past few years tending to establish the deadly nature of the cucumber, particularly in the case of elderly people who have acquired the habit, that the protagonists of this treacherous ishmael of the gardens have become acutely sensitive. Efforts to reform them only confirm them in their obstinacy. After indicating the special perils incident to the eating of produce which may have been contaminated, the department merely hints diplomatically that one must be especially careful in the matter of "vegetables that are to be eaten raw." In order to make the matter still clearer, without giving offense, it is added that "thorough cooking destroys bacteria." (Coming from such a source, those words are full of meaning. It is a notorious fact that the cucumber is practically the only garden vegetable which is never cooked. To bake or boil it would be a most effective way of neutralizing its toxic juices, but the very thought of cucumber pie, for example, seems as incongruous as a fried sherbet. This in large part explains why it is that while the toast-stool claims its thousands, the cucumber plays its tens of thousands.)

Ah! here is a new "science," or medical discovery: "Merriopathy," or the "science of the healing laugh." Great is the therapeutic virtue of the "healing laugh." All you have to do, remarks the disciple of Galen who writes out this prescription (no charge for it, that's one advantage), when you are feeling real bad, is to laugh right merrily, feel first rate, and, lo, the attack, however fierce, is over. Good for dyspepsia, good for hay fever, good for a liver that has gone on strike; and a sure cure for the heart bowed down by misfortune, grief, bereavement, says the Milwaukee Sentinel. So throw physic to the dogs; and when you lose wife, husband, mother, dry your eyes and assume the broad grin. You have no idea how fine it will make you feel, says "Merriopathy." Just laugh when you feel like weeping; just feel real good when you feel real bad. That is "merriopathy." How delightfully easy! O, those front page, "physicians!" The "Merriopathy," however, is a lot better than the frequent scientific person who presumes on his professional acquaintance with your insides to scare you into fits every week or so by publishing some frightful new disease, food peril, or devastating microbe.

According to Professor Jung, one of the country's best known authorities on gastronomy, the question of when, how and what to eat is one of the most serious problems confronting the nation. "The health and happiness of our men and women," he says, "rests on the abolition of the quick-lunch counter, for as a result of improper food, improperly eaten, comes melancholy, and after melancholy nearly anything, says the London American. Bring back the good old home cooking; let a wife's love for her husband be borne out by her cooking." Says Meredith: "Civilized man cannot live without cooks." Professor Jung recommends that every man learn to cook for himself. The trouble with most of us is that we sit down to a meal as we go to the dentist's chair. The hour comes for eating, and we eat; the process is regarded as an evil to be ended as quickly as possible. We do not think or care what we swallow without chewing, and we get up with an air of a martyr as though we would say, "There, that's done."

Although that New York broker who lost his money and went on the stage is utterly unable to act, he need not let such a trifling disturb his histrionic ambitions. Some of our most successful players are in the same boat.

A New Jersey policeman who recently inherited \$100,000 has received 2,000 offers of marriage. It is evident that a lot of women think he is not going to be spoiled by sudden riches.

A Chicago woman had her husband sent to jail for abandonment. Then she served his sentence with him. She knew he couldn't run away from her there.

A New York woman suing for divorce says her husband caused her in seven languages. Evidently she is tired of the seven ragas of man.

The English army has decided to quit experimenting with aeroplanes. Evidently the supply of lieutenants has been exhausted.

There is still hope. Men's fall hats are apparently no fuzziest than they were last year.

## ROOSEVELT'S

Wound More Serious Than at First Announced

Distinguished Victim Now in a Chicago Hospital—Wife and Children Are With Him

Demented Man's Act Which Has Shocked the World

Ex-President Roosevelt who was shot by a demented man named John Schrank at Milwaukee Monday night, was more seriously wounded than at first announced.

The Colonel was removed to a Chicago hospital yesterday where he is under the care of the most eminent surgeons.

The assassin's bullet pierced the Colonel's chest, a thick bundle of manuscript and his metal spectacle case and lodged 4 inches deep in his chest.

CHICAGO, October 15th—Former President Roosevelt was resting fairly easy tonight and his physicians said after a day of nervous strain, that they were pleased with his condition. (The clinical record showed, however, that his condition was hardly as favorable as when he entered the hospital last night on his arrival from Milwaukee.)

His pulse at 10 o'clock was 86, or fourteen counts above normal, and two counts above the record two hours after he was shot.

Colonel Roosevelt told his nurse tonight as he picked up his book for a second spell of reading about 11 o'clock, that he was going home to Oyster Bay on Sunday. He ordered his breakfast for 7 o'clock and said:

"Mind, I want a good one, I'll be hungry."

He gave directions about his clothes and his room to have everything in readiness to see Mrs. Roosevelt in the morning.

### THE WOUND.

The following statement was issued by the physicians at 10:30 a. m. Tuesday: "Deep bullet wound of chest wall, without striking any vital organ in transit; wound not to be probed. Point of entry is one inch to the right and an inch below the level of the right nipple. The bullet ranged upward and inward for a distance of four inches into the chest wall. No evidence that the bullet penetrated the lung. Pulse is 90, temperature 82.1, respiration 20, leucocyte count 8200 at 10 a. m. No operation to remove the bullet is indicated at the present time. Condition is hopeful, but the wound is so important as to demand absolute rest for a number of days."

### ROOSEVELT'S ASSAULT.

John Schrank, German-American, giving address as 156 Canal street, New York City, where he ran a saloon for years. Is 36 years old, short, rather stout, bald, emaciated-faced, plainly dressed; is 5 feet 7 1/2 inches tall, weighs 167 pounds and has a light complexion. Says he is a German writer, poetry being his specialty. Appears to be demented. Had followed Roosevelt for weeks. Apparently acted on his own initiative. Says he is not a member of anarchist or any other society.

### MOTIVE FOR SHOOTING.

Schrank declares he sought to kill Roosevelt because he feared he would be elected to a third term as President. Also mentions insanity about a spirit message from McKinley, ordering him to slay Roosevelt. Says he has hated Roosevelt from time when he was Police Commissioner in New York, when his regulations interfered with Schrank's saloon success.

### POLICE ACTION.

Schrank placed under arrest immediately. Immense crowd surrounded jail, and fearing an attempt at lynching, police took prisoner to secret hiding place for safe keeping. He was later returned to cell in the Milwaukee Jail and charged with "assault and attempt to murder one Theodore Roosevelt." He pleaded guilty.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They are offered hand and foot for any case it fails to cure. Send for circular and testimonials. Ad dress, F. J. CHENEY & CO., Toledo, O.
